*Thank You
for Your Business*

When a loved one leaves this earth and a memorial is placed to honor his or her life, you see the date of birth and the death date. In between those two dates is a hyphen - that person's entire life spent here with family and loved ones.

As etchers, it's our job and honor to create an artistic rendition of this hyphen and engrave it on their memorial. We can do it in a classic style of black and white, or we can do it in color to give an added vibrance of that person's life stamped here on this earth.

These monuments will last forever, as will the memory of your loved one.

This is a very special job that we get to do and we take pride in immortalizing your loved ones.

“Art is an insignificant attempt
at reproducing what God does
every moment.”

- George Harrison
